IMPROVING PERFORMANCES

Mobile Unit equipped with digital images acquisition system in radiography mode with detector at solid status. Manual mechanics with vertical movement of the arm.

COMPACT DR, suits a wide range of clinical applications, intended to perform diagnostic and radiological examinations of:

- Intensive care
- First Aid
- Orthopaedics
- Neonatology
- Sports Medicine
- Operating Theatre

The acquired images are saved in the system memory, displayed on a high resolution monitor and possibly sent to a diagnostic work station or to a general archive through Dicom connection.

The unit grants the automatic calibration of the acquisition parameters, process and image display according to both the selected anatomic part and the patient size.
